

# Mateusz Zaremba

Programmer, Mathematician, Graduate student

mat.zar@icloud.com | Personal website | Update: Dundee, 8th January 2020

## Currently

Studying towards MSc in Mathematics and Data Science at the University of Stirling

## Specialized in

C++, Python, R, Statistical Analysis, Big Data

## Research interests

Statistical analysis for data science, representing and manipulating data using R and Python programming

## Education

### University of Stirling, United Kingdom

2019 -

MSc in Mathematics and Data Science

2020

Representing and Manipulating Data (Merit)  
Commercial and Scientific Applications (Merit)  
Statistics for Data Science  
Networks & Graph Theory  
Data Analytics  
Modelling in Financial and Medical Systems  
Stochastic Processes and Optimisation  
Dissertation Project

### University of Abertay Dundee, United Kingdom

2015 -

BSc with Merit in Computer Game Applications Development, 2:1

2018

3rd year modules (GPA: 2.83):

Graphics Programming with Shaders (C+)  
Gameplay Mechanics Development (C+)  
Network Systems for Game Development (A)  
Artificial Intelligence (B)  
Professional Team Project: Planning and Prototyping (C+)  
Professional Team Project: Development and Delivery (C+)

2nd year modules (GPA: 4.17):

Data Structures and Algorithms 1 (A)  
Data Structures and Algorithms 2 (A+)  
Graphics Programming (A)  
Game Programming and System Architectures (A)  
Film and Game Genres (A)  
Mathematics for Application Development 2 (A+)

1st year modules (GPA: 3.63):

Computer and Graphics Architectures (A)  
Programming in C++ (A)  
Narrative Theory in Interactive Game Design (C+)  
Mathematics for Applications Development 1 (A+)  
Asset Production for Games (B+)  
Games for Change (B+)

## Funding Awarded

### The Data Lab MSc scholarship

Sep 2019 - Aug

Fully funded MSc place; £6500 towards tuition fees

2020

Training with Data Scientists

## Relevant Experience

### C++ Software Engineer Intern, Viastore

Jan - Feb  
2019

Learned about:

- Relational and non-Relational Databases
- Large distributed IT systems
- Business use of rapid prototyping

### Unreal Game Programmer Intern, Bohemia Interactive

Aug - Oct  
2018

Project worked on: Vigor, post-apocalyptic survival game

Internship responsibilities:

- Networked gameplay programming
- UI programming
- Prototyping
- Developing new solutions based on already existing ones and bug fixing

### Lead Programmer, Abertay University: Professional Project

Sep 2017 - Jun  
2018

Projects worked on:

Mobile game for Junkfish Game Company

Retro platformer for Timex

- Engine: Unity
- Programming language: C#
- Platforms: Android (Junk Fish), Windows (Timex)
- git

Key responsibilities:

- Prototyping
- Game programming
- Source control maintenance: merging, pull requests, .gitignore

Team management:

- Kanban boards with GitHub Projects
- SCRUM (Deadlines setting, mentoring)

## Hackathons

### Gameplay Programmer/Design/Team Lead, Serious Game Jam

Jan 24, 2018 - Jan 26,  
2018

Mobile game prototype:

Aid for lectures and students from the University of St Andrews,  
with preparation and explanation of their practical exercises

Engine: Unity

Programming language: C#

Platform: Android

gameplay video , git

### Gameplay Programmer/Design/Team Lead, AGDS 4-hour Game Jam

Nov 8, 2017

Brief visual novel with animations, telling a joke

Made in 4-hours with two artists

Engine: Ren'Py

Programming language: Python

Platform: Windows

gameplay video , git

### Gameplay Programmer/Design/Team Lead, Rainbow Game Jam

Aug 15, 2016 - Aug 17,  
2016

Infinite runner chosen to be made in 48-hours with two other artists and a sound designer

Engine: Unity

Programming language: C#

Platforms: Windows, MAC, Linux

gameplay video , git , play in browser

### Gameplay Programmer, Global Game Jam 2016

Jan 29, 2016 - Jan 31,  
2016

Easy pick-up game. My first Unity project and first game jam

Engine: Unity

Programming language: C#

Platforms: Windows, MAC, Linux

gameplay video

## Societies

**Member of Abertay Game Development Society:** 1st year project, 2nd year project

Sep 2015 - Jul 2018

## Volunteer Experience

**Built and managed St Andrew's RC Cathedral website**  
<http://www.standrewscathedraldundee.com/>

Sep 2017 - Aug 2018

**Class Representative of the 1st Year Computer Applications Game Development course**

Sep 2015 - Apr 2016

## Other Experience

**Warden, St. Ninian's Institute, Diocese of Dunkeld**

Taking care of the St Ninian's Institute and its guests  
Welcoming at the reception and showing guests to their rooms

Oct - Dec 2015

**Waiter/Bartender, Drumoig Golf Hotel**

Welcoming people at the reception  
Bartending  
Waiting

Apr - Aug 2015

**Office Assistant, University of Wroclaw**

Calling vendors to set up appointments and gather information  
Post delivery  
Clerk duties

May - Aug 2013

**Younger Lifeguard, Wroclaw Water Park**

Taking care of visitors safety and well being  
Stamina and wellbeing training

Jan - Aug 2009
